Whidbey Island Water Systems Association

Newsletter

December 2022

Welcome to the WIWSA December 2022 Newsletter!

Whidbey Island Water Systems Association sends a monthly newsletter to keep our community up to speed with water news. We send this newsletter to our email list and post it on our website. We aim to provide an easy place to find all the month's news and upcoming events.

Please share this newsletter with your fellow water system board members, commissioners, operators, members, friends, neighbors, and anyone who drinks water on Whidbey and beyond, and encourage them to [subscribe](#).

News from Whidbey Island Water Systems Association

Proposed Bylaw Changes

The Board of Whidbey Island Water Systems Association would like to make some changes to our bylaws. We will be asking the membership to vote on these changes at the Annual Meeting on December 15th, 2022. **Please take a moment to review [these changes](#) and send any comments to [mail\(at\)whidbeywatersystems.org](mailto:mail(at)whidbeywatersystems.org).**

Key Changes

- We propose opening full voting membership to private well owners and to associate members such as service providers. This better reflects participation in our meetings.
- We propose increasing the number of directors from five to nine. This will give the board more capacity to handle the ever-increasing workload and make sure that all classes of members can be represented.

There are several corrections of spelling, punctuation, grammar, and formatting.

Details of the proposed changes with the full text of the current and proposed bylaws can be found on the Association web site [here](#).

Special Section: PFAS

Public Participation Grant

Ecology's Solid Waste Management Program Management Team has conditionally approved WIWSA's application for an emergency [Public Participation Grant](#). This grant will provide funding to help WIWSA to increase public understanding and involvement in cleaning up PFAS contamination in groundwater. We'll be presenting on this grant at the Annual Member Meeting and asking the membership to accept this grant.

2022 EPA Health Advisory Levels for Four PFAS

On June 15, 2022, the U.S. Environmental Protection Agency (EPA) released lifetime Health Advisory Levels (HALs) for four per- and polyfluoroalkyl substances (PFAS) in drinking water. These included interim health advisories for PFOA and PFOS and final health advisories for PFBS and GenX chemicals. [2022 EPA Health Advisory Levels for Four PFAS \(wa.gov\)](#)

The EPA expects to announce proposed Maximum Contaminant Levels for PFAS compounds including PFOA and PFOS by December 20th, 2022.

Web site updates

We have changed the look and feel of the [website](#) so you can see recent posts and other features more easily. It also works better on mobile devices. Check it out and let us know what you think!

We have added an [events calendar](#) to the web site. You'll find it on the main menu. The calendar contains WIWSA events and those from partners. There's a submenu that lets you choose just [WIWSA events](#).

We've also added a special [PFAS resource](#) section to the web site.

Billing

As we gear up for a new year, if your water system's contact information needs to be updated, please use the [Membership Application/Renewal/Update](#) form.

Scholarship/Apprenticeship Program

WIWSA is partnering with ERWoW/RCAC and SMAs and water systems on Whidbey Island to offer a scholarship and apprenticeship for persons interested in pursuing a career in drinking water. Please contact us for details. Our first applicant is already enrolled in the program.

Dates and plans for 2022 member meetings:

The topic of the September meeting was **PFAS in drinking water**. We met in person at Coupeville's water treatment plant with a Zoom option. We had a tour of the plant and brief presentations from DOH, Ecology, the Navy, and Confluence Engineering, followed by a panel discussion. The presentations are available here: [Presentations from September 2022 Member Meeting – Whidbey Island Water Systems Association \(whidbeywatersystems.org\)](#)

Save the date! Our next Member Meeting will be **Thursday December 15, 2022, 6:00 pm - 8:00 pm**. In addition to our annual business such as election of directors and approval of the budget, we'll be asking members to approve bylaws changes and accept a Public Participation Grant from the Department of Ecology. Full agenda and zoom link to follow. Remember that to receive the invitation email with the meeting link you need to [subscribe](#) to this email service.

Drinking Water Week

It's That Time Again! Is there a water system you're proud of? Do you know an outstanding waterworks operator or another deserving person in the drinking water industry? [Nominate](#) them for an award!

We're collecting nominations until February 20, 2023. Anyone can nominate someone in the drinking water industry for an award, [just fill out this nomination form](#). Some of the categories we use are below. We also adjust categories to fit special situations.

Above and Beyond. Recognition for going above the normal call of duty and/or to provide assistance to neighboring water systems.

Commitment to Excellence. For those who continuously strive for excellence in providing safe and reliable drinking water.

Grace Under Pressure/Perseverance Under Adversity. For handling a crisis well, or for persevering under consistent challenges.

Lifetime Achievement. Reserved for those who are retiring.

Most Improved. This award is typically presented to water systems that overcome a bad situation and now provide excellent service.

Operator of the Year. To recognize an operator for their dedication and commitment. They also help educate and mentor others in the water industry, lending help and knowledge where needed.

Most Innovative. Presented to water operators/systems/organizations that come up with innovative solutions for challenges they face. Nomination Form Now Open [View this as a web page](#)
