

Hello,

I need your help. Facet (previously DCG Consulting) has been hired by Island County to review the County's Coordinated Water System Plan (CWSP) and provide recommendations to update this plan. As the owner of an individual well, your perspective on developing and maintaining your well is critical to determine how this plan could be updated to better support your needs, improve cooperation among well owners and water systems and protect Island County's water resources.

Please consider completing a brief, 5-minute survey by clicking here:

[Individual Well Owner Survey](#)

**Your response is desired prior to June 30, 2025.**

Your responses will remain confidential and are greatly appreciated.

---

If you would like additional information on the CWSP process, please visit: [About the Coordinated Water System Plan](#)

For a copy of the current CWSP please see: [Coordinated Water System Plan](#)
